Warning Display

If you see "Flow" in the display, the breath sample was not strong enough for measurement. Please repower the device and make sure the breath is strong and steady during sampling.

If you test over 300 tests, the AL7010 will display "CAL" sign for 15 seconds and then warm up for testing. The "CAL" sign will show when calibration is required.

If you see "bat" in the display, the battery power is low. Please replace the batteries.
