

ALCOSCAN ALC-1

Professional portable breathalyzer
with convenience for user

What is a Pre-calibrated Replaceable Sensor module?

Sentech Korea is the first breathalyzer company to introduce pre-calibrated replaceable modules to the market. The Pre-Calibrated Replaceable Alcohol Sensor Module can eliminate the delays and complications of re-calibration by allowing you to simply "snap out" an old module and "snap in" a new module.

What is general and personal mouthpiece?

- General mouthpiece is the single use.
- Personal mouthpiece is not single use. So the user can test ALC-1 without putting general mouthpiece. Just push the hook for using this mouthpiece.

Sensor Type

Fuel Cell
Alcohol sensor
